

FREELANCE PROPOSAL PROMPT SYSTEM - Sampler

=====

FREE SAMPLER - 5 PROMPTS FROM THE FREELANCE PROPOSAL PROMPT SYSTEM

What this is: A standalone taste of SKU #1. Five prompts you can use today on a real lead.

What this isn't: The full close-system (34 prompts, samples, SOP, revision passes).

Tiny howto

1. Replace {{variables}} with your client details.
2. Run in order (1 -> 5) in one chat thread.
3. Paste outputs into a doc = rough proposal spine.
4. Want the full bank + worked samples + one-sitting SOP? That's the paid product.

Variables: {{client}} {{contact}} {{service}} {{problem}} {{goal}} {{budget}}
{{timeline}} {{your_name}} {{deliverables}}

Sampler Prompt 1 - Discovery snapshot

Summarize this freelance opportunity for {{your_name}} proposing {{service}} to {{client}}.

Notes:

{{paste_notes}}

Return: (1) one-sentence summary (2) in-scope bullets (3) out-of-scope bullets (4) top 5 clarifying questions for {{contact}} (5) assumptions labeled [A].
Keep it proposal-ready and concise.

Sampler Prompt 2 - Outcome rewrite

Rewrite {{problem}} into an outcome-focused proposal opening for {{contact}} at {{client}}.

Goal: {{goal}}

Service: {{service}}

Include current state, desired state, and a bridge to {{service}}. 180-220 words. No fake stats. No hype.

Sampler Prompt 3 - Milestone sketch

Create a milestone table for {{service}} for {{client}} over {{timeline}}.

Deliverables: {{deliverables}}

Columns: Milestone | Timing | Deliverable | Client action

Use 4-6 milestones. Solo freelancer assumptions OK if labeled.

Sampler Prompt 4 - Three pricing options

Design three pricing options for {{service}} for {{client}} near {{budget}}.

Goal: {{goal}}. Deliverables core: {{deliverables}}.

For each option: name (outcome-based), includes, excludes, price band, best-for line.

Mark one recommended option and say why in 2 sentences.

Sampler Prompt 5 - Close + send email

Write (1) a proposal closing paragraph with a bold next-step CTA for {{contact}} at {{client}}, and (2) a short send-email with 3 subject line options.

Recommended option name: {{option_name}}

Investment: {{price}}

Timeline: {{timeline}}

From: {{your_name}}

No fake urgency. Scheduling-based timing OK.

That's the sampler. The full Freelance Proposal Prompt System adds stages for objections, payment schedules, risk registers, follow-up sequences, scope-leak audits, and three worked samples from one fictional gig-so you can close, not just draft.

Want the full system?

Freelance Proposal Prompt System - \$29

From messy lead notes to a scoped, priced, close-ready proposal in one sitting.

Adds objections, payment schedules, risk registers, follow-ups, scope-leak audits, and three worked samples.
